

The Mysterious Collapse of World Trade Center 7: Why the Official Final Report about 9/11 Is Unscientific and False (Paperback)

By David Ray Griffin

Olive Branch Press, 2009. Paperback. Condition: New. Language: English . Brand New Book. Author of several notable books about the 9/11 attacks, Griffin (Philosophy of Religion and Theology, Claremont School of Theology and Claremont Graduate University) explores the collapse of the World Trade Center s Building 7, which--unlike the Twin Towers--was not struck by an airplane. In an examination of the National Institute of Standards and Technology report on the collapse, the author suggests that the report s conclusions are not supported by good science.
